I tinkered around outside and did things outside until supper and grilled steaks." Barry stated, "**If I went to DSI, it wasn't in the afternoon**," and, "I could've ran back to Crib and had him put the blade on." Barry said, "I know I made steaks on the grill. 		5/9/2020 0:00:00	BM account of 5/9 - told on 6/3/2020	(Investigators interview on 6/3/2020) Regarding Saturday (May 9th) morning, Barry stated that he did not set alarm or recall what time he got up. He made himself and Suzanne breakfast, set it next to her in bed. He said, "I think I made bacon and eggs and toast." Regarding Saturday, Barry stated that he got home and Suzanne had a bowl of soup ready for him. They talked about hiking and biking; they spent the day together and sat outside in the sun and talked for an hour. Regarding Saturday, Barry stated, "I honestly don't recall what we did after that (soup), but I think we hiked here in the subdivision. Yes, we did hike, we hiked to Fooses that night." Then, <said> twice, "I'm pretty sure that's the night we hiked Fooses." Barry stated, "I know we sat down at the lake for a while. I'd say we were gone for an hour and a half, maybe." He added, "It was actually a good day. She didn't drink at all. It was a normal, nice afternoon." Barry stated that he got back to the house "probably around three or four. Talked about the dinner and she said she was gonna make some potatoes." He said he "would marinate the steaks; I'm probably in the garage, I usually tinker around there, **killing** time." He added that Suzanne was probably doing <?> sheets, adding that <?> ***bed was a free-for-all*** while he was in the garage tinkering. Barry said, "Just had a wonderful evening and she was perfectly fine because there was no alcohol in her." He again said he asked her not to drink that night. Barry stated that after dinner, Suzanne did the dishes and he went back into the garage, fixing the pin on the bobcat. Barry stated, "I think I recall seeing 4:15-ish, when I get up and knowing that hey, if I leave at five, I'll get there at eight." He added, "I probably got up took a shower, got my clothes on." Barry added that Suzanne was naked the last time he saw her, so he did not know what she was last wearing. Barry stated that he went into the dryer looking for socks and saw <?> sheets, and he dug through some of Suzanne's clothes in the dryer; a pair of her shorts was in there.				AA-Timeline

		5/9/2020 0:00:00	BM account of 5/9 - told on 5/13/2020	(Investigators interview on 5/13/2020) Barry stated that on Saturday, May 9, 2020, he worked with Morgan Gentile on a job site in Salida. Barry stated at around 2:26 PM, he texted Suzanne that he was done and was headed home. Barry stated that some time on Saturday, Suzanne asked him to take her mountain bike and helmet out of her vehicle, which he did. He added, "It's actually one of the best nights we've had in a while, actually" because there were no chemicals in Suzanne. He said they put their phones aside. Barry explained that on Saturday evening they had dinner together, had sexual intercourse, and went to bed. Barry could not specify a time but believed it was around or after 8:00 PM. Barry stated neither he nor Suzanne left the residence again. Barry stated that he was **scheduled** to travel to Broomfield on May 10, 2020, to get eyes on the site and fully determine what was needed. When asked if anything out of the ordinary happened, Barry said, "No, no, it was a perfect day, Saturday." When Agents asked Barry if Suzanne had been drinking, he said that he did not pay much attention because he "wanted to have a good night with her." Barry said that they grilled steaks and did not leave the house after he got home that day. He said that he and Suzanne laid out on the patio in the sun. Barry said that she made soup for lunch. He left his phone alone because he wanted "a nice evening with my wife." Suzanne talked to Barry that evening about purchasing a house in town for $800,000. He said that Suzanne was not on her phone that night that he knew of. When Agents asked Barry if he and Suzanne went to bed together, he replied, "I'm pretty sure we do," and later, "I'm pretty sure we went to sleep together that night." Suzanne did not leave the house after they had sex and went to sleep. When asked by Agents specifically if Barry used his phone to set his alarm for 4:30 AM on Sunday, he stated that he 'just woke up on my own without an alarm." Agents also told Barry that documents were left in the room and asked him if he took any documents into the room. He replied, "Not to my knowledge. There was somebody in the room after me. It could have been his." When Agents asked Barry why he did not pick up Morgan Gentile, as agreed, on Sunday for the ride to Broomfield, he stated: "I didn't want her to ride with me because she smokes," and, "I told her I wanted her to drive her car," and, "She was just gonna follow me." I do not recall that." SA Grusing further explained that Barry's phone went into airplane mode at 2:47 PM and came back out at 10:18 PM, adding that maybe Barry did it on accident. Barry looked at his hand, as if he was holding his cell phone, and said, "Yeah, it's the first thing that comes up when you hit 'Settings,' and it would, if that happened it was probably an accident." 		5/10/2020 17:00:00	BM evening (SM Missing) - told on 5/13/2020	(Investigators interview on 5/13/2020) While on the jobsite, Barry explained that his neighbor, Jeanne Ritter, called him and explained, <Macy> still could not reach Suzanne. Jeanne, who has the access codes for the house, asked to go check the house. Jeanne discovered Suzanne's car was there; however, her mountain bike was not. Barry stated he had texted Suzanne, "Happy Mother's Day," earlier, as did their daughters. Barry stated his daughters had not received any replies from Suzanne. Also, Barry stated there is no cellular phone service at the house, unless the phone is on the Hughes Net Wi-Fi internet service. Barry stated, "I was at the job site when Jeanne called me," adding that Jeanne called around 5:00 PM. Barry left the jobsite and drove to the hotel where he dropped the tools off in the lobby. He then drove directly back to Salida. Barry initially said there were no issues with their marriage. Later in the interview, when asked, Barry disclosed they did fight. Barry explained that Suzanne has battled through stage-four Non-Hodgkin's Lymphoma several times in her life. The most recent battle started late last year, 2019. Suzanne was receiving maintenance treatments at the cancer center in Salida. Barry stated that Suzanne started using <?> and alcohol. Barry stated this drug and alcohol use would sometimes lead to arguments, during which, Suzanne would accuse him of being controlling. Barry described Suzanne's demeanor as "hateful." Barry stated the last argument they had was **Friday morning**. He denied any physical abuse or altercations between Suzanne and him. There are surveillance photos of him being in his hotel room, notthe job site, when Jeanne Ritter called him at 5:00 PM.				AA-Timeline

		5/11/2020 0:00:00	BM account of bedding	(Investigators interview on 3/10/2021) He added, "I know that you took my bed sheets. I know, I didn't even know until after the fact that ---- sheets were off her bed upstairs. I mean, what a coincidence. Her sheets are off her bed and tnen all of the sudden, it's like, 'That's where he did it. And the sheets are gone. He washed 'em. Blah, blah, blah.' I had no idea they were off. Suzanne was obviously wash in' the sheets because was with Suzanne and and they were gonna stay there that night and Suzanne's takin' sheets off, and washin', gettin' things ready." SA Grusing asked if <? > was going to stay there and Barry said, "Yeah, they always, they always sleep together. Yeah, they always sleep together." Barry continued, "So I didn't even know that those sheets were off the bed, but, Boom. That's makes me look bad. And I was not even aware of it, but I guarantee ya that there's no evidence on those sheets, wherever they're at. I don't know if you can have evidence when you wash them or not. I've never done your job, but there, I know for a fact that you guys have found no evidence on me doing any of this. It just doesn't exist - that's why I just don't understand how can it go nine months?" SA Grusing asked why those things made Barry look bad and he said, "Because it looks like if I did something and ripped the sheet and got blood on them and ripped 'em off and washed 'em - to me, lookin' at it through a detective's eyes, that would look a little uspicious." Agents had an appointment with Barry from the previous day to meet at 6:00 AM at his residence, however, Barry left his residence at about 5:40 AM and pulled into the DSI lot at approximately 6:05 AM. Barry stated, "Yeah, I had a package at UPS I had to pick up, they closed at six and I had to get there at six to come back to the gym. I didn't lie to ya." SA Grusing said Agents were working a homicide case - and desired to work with Barry and clear him if possible. Barry said, "That's that shoulda been done months ago." SA Grusing said the FBI's job is to collect facts, review the warrants and Barry was the main person to explain the facts. Barry was told his cooperation was voluntary, and if he chose not to help explain the facts in the case, that was his decision. Barry continued, "But everybody's got eyes on me, they see me talking to you. There's people seeing me talk to you right now. There's cameras right now. And it's gonna get out." SA Grusing told Barry that him talking to the FBI should appear normal to other people and help them calm down. SA Grusing told Barry that Barry's explanation of going to Garfield helped explain the missing seven miles each way from his truck, something Joe did not know in July. Barry talked about how speaking with the CBI was bad for him because what he told them got out in public. SA Grusing told Barry that he considers talking to Agents as a bad thing. Barry was told what normally happens if a dad is missing a daughter, or a husband missing a wife, is that they knock on the FBI door all the time.				AA-Timeline

He added, "I'm just telling you right now that if I was guilty, I wouldn't hand over weapons to you guys." SA Grusing said Barry's movements that afternoon, to include the truck door opening, him running from porch to porch and Suzanne not answering texts from her lover look different from investigators' perspectives. Barry stated, "I explained that. I mean, there's, I mean, you can ask anybody that knows me - I've sh--, I've killed 85 chipmunks at my house. That's all I do, I mean I can't sit still. I'm a worker. SA Grusing said at 2:47 PM, Barry's phone went into airplane mode. SA Grusing asked Barry ifhe placed the phone in airplane mode. Barry asked, "I don't, where was, Was it on me? Or was it on the kitchen or what?" SA Grusing said the phone movement was how Agents knew Barry was moving around. Barry said, "Oh, because it was on me?" SA Grusing said that in the past, Suzanne tried to track Barry's phone because she thought he was having an affair, and Barry said, "Mhhmhh." SA Grusing said Suzanne told her friends and lover about her tracking him. Barry stated, "Well, she's told me that. I mean, she's tracked me everywhere I went (UI)." When SA Grusing said Barry may have been placing his phone in airplane mode to keep from being tracked, he said, "No. No. No, I don't recall turning my phone on airplane mode. I do not recall that." He added, "I mean, I do not recall that." SA Grusing told Barry that his truck doors were opening and closing as it backed into the middle of the driveway. Barry said, "I had junk in my trunk, and I always have junk and I'm always taking somethin' out, leaving my door open. I mean, I don't know that that's the case but that's what I did." SA Grusing said the truck doors, to include passenger, were opening and closing until 9:52 PM, that Barry must have been loading a lot in his truck. Barry said, "To go, to get ready for Broomsfield. 		3/5/2021 6:07:01	BM asked for Immunity	(Investigators interview on 3/5/2021) Barry asked, "And what about immunity? Can you give me immunity if I sit and just open my life to you?" SA Grusing asked immunity for what, and Barry replied, "I think in case somebody falsely convicts me, or something. SA Grusing said, "You won't be falsely convicted." Barry was told if "something bad happened," Agents would argue to the DA that Suzanne had the affair and talked about antagonizing him starting May 5th. Barry asked, "She actually set a date?" Barry was told it was that week.				AA-Timeline

He asks where his road is and is told that it is off the map. Barry said, "I can't tell you exactly where I turned around, but it was probably the first road or drive going into Garfield." Barry said the reason he was watching where the elk go is because he hunts sheds and that while the bull didn't have its horns, it was a big bull and he figured that Barry could get its pattern then he could follow that pattern and find his horns. Barry talks about the county road where the helmet was found and said he was pretty sure he went past that one, because he was stilling looking at the herd. [*As Barry discussed watching the herd and its patterns and where he turned around, he was motioning several times back and forth with the pen from the road to the location of Garfield mine on the map.]*				AA-Timeline

SA Grusing asked Barry when he thought it was ok to stop searching for Suzanne and he replied, "Never." SA Grusing asked when Barry physically stopped searching for her. He said, "I searched for three, three to five months." SA Grusing asked Barry at what point he felt searching would do no good. Barry said, "I felt like she was gone. I felt like somebody, I really felt in my heart that somebody took her and left the area ... And then, probably five months down the road, I thought she's in the river." SA Grusing asked Barry what he did about searching difficult places, like mineshafts. He said, "We did. We searched every mineshaft in this area." SA Grusing asked if vertical shafts were in the area, and Barry replied, "Yeah, there's one behind the house that's on the very top, but it's plugged by a boulder. They plugged it. It doesn't go, I mean it goes straight down and they plugged it." When asked if there were more, he added, "There's another one, but it's been blown up - by the house. I don't know of anything open by the house. The ones in Garfield are open, the ones up 240 are open." SA Grusing asked if search and rescue covered those and Barry said they did not search much past the first day or go across the highway. He said, "And I was certain that first day that a mountain lion got her. I was certain of it." He added, "I've been hunting that lion for two years." Barry said he tracked the lion six times and knows his habits: coming down the hill behind his house, up the road, across the bridge, across Highway 50 and east across the mountain. He added, "I've seen him do it a hundred times." Barry said there is no way she cares more about "this guy" than about her girls. He added, "I just have no clue. I thought she was in the river." He said search and rescue assured him she was not there after they used poke sticks. Barry stated, "At the end of summer I'm like, 'What if she's there? The whole time? What if she is there?' He talked about using an excavator from work and tearing up a beaver dam but needing a "240 or a 320" size excavator because of the hundreds of trees. Barry asked, "Could she be there right now? Absolutely. I don't understand why they spent $140,000 digging up my job site - if they woulda put that		The AA indicates this is pt 2 of interview on 3/10/21 but no part 1 is availible		AA-Timeline

				money in the river, cleaning it and making sure the body's not there, that would've been put to good use." He continued that the neighbor who heard the machine was ninety years old and senile, and the contractor who worked at the job site asserted no work was done recently where the dig occurred. He said the media got a hold of that and "everybody jumped on, beatin' the freakin' crap out of me." SA Grusing asked Barry if, after he looked at the bull elk, he continued past the exit to 285 to Denver or continued on Highway 50 into town. Barry said, "No, I went straight there." When asked how long he watched the bull elk and if it was walking along the highway, Barry said, "No, they crossed. I was trying to see where they were going up the mountain because that's where I was gonna look for his horns because they do the same things, they're gonna drop their horns in the same pattern." He added, "They had already crossed. They were in the road when I stopped in the road before I got to fifty, they were in the road, crossing, and then they cross the road, and by the time I get up there, they're already crossin' the mountain. I mean, I don't stop on fifty, I keep going. I'm just watchin' to see where they're going. I get to Garfield, tum around, go right to 285." Investigators have driven from the intersection of Highway 225 and Highway 50 to Garfield, a distance of 2.73 miles, an impossible distance to see an elk at or around 4:32 AM and follow it in a short period of time. Barry had about 30 minutes to head that way, tum around and head back towards Highway 285. Barry's truck was seen passing video surveillance on Highway 50 right near the junction with Highway 285 and then again just north on Highway 285 at around 5:14 and 5:16 AM				

		3/10/2021 0:00:01	BM account of truck with Gruising	(Investigators interview on 3/10/2021) Barry continued, "And the thing about it is, if I had anything to do with this at all, there would be, there would be evidence of *me and my truck* doing something with her between Salida and Broomsfield." Barry added, "And-- you, if, I had her, and took her to Broomsfield, and disposed of her somewhere between there, you guys would see that with my computer. You see where I stop. I told Joe every stop I made. And I know for a fact it, it had to line up with my computer. If you guys are that good at forensics, it had to line up." SA Grusing told Barry that Agents could not see every location point when he was in the mountains which is why the bull elk story made sense. Barry said, "Yeah, (cleared his throat), I know that you had my truck- for several days. I know that you had my house. I know that you had her car.
